

TO: COMMITTEE ON REDISTRICTING

Please protect our rural communities and rural needs for leadership in the redistricting process. We are not Metro Portland nor want to be. We are ONLY connected to Portland by Highway 30.

We are a close knit rural community and we need leadership that understands and will represent our concerns and what a rural area needs

Enveloping city politics into our community would be devastating to our way of life. We need to keep our rural way of life intact and keep Portland Politics out of our community.

Thank you.
