BACKGROUND:

The 2017 Oregon Legislative Assembly created the Office of Outdoor Recreation (OREC) within the Oregon Parks and Recreation Department to advocate for outdoors and connect the personal, community, and economic benefits of outdoor recreation for all Oregonians. In 2019, the legislature created the Oregon Conservation and Recreation Fund (OCRF) within the Oregon Department of Fish and Wildlife to support projects that protect and enhance species, habitats, and associated recreational opportunities.

HB 2171 would repeal the sunset clause on Oregon Conservation and Recreation Fund (OCRF) and appropriate \$1 million matching fund out of the General Fund to OCRF. It would direct the Oregon Parks and Recreation Department to establish statewide standards for design of recreational projects and direct the Office of Outdoor Recreation to study and recommend to the Legislative Assembly equity strategies that would reflect geographic, racial, ethnic, and gender diversity in access to outdoor recreation.
