

Betsy Johnson brought it to our attention that Columbia County is at risk of having parts of Multnomah County becoming part of our district. We do not want them to be part of our smaller, distinct district! We are a smaller, more conservative district at present, and we would be drowned out and not heard if the larger, liberal Portland area were to come into our district. Let us keep our voice here in Columbia County as it is. Do not change our district. It is only fair to let us be heard!

Sincerely, Martha M. Butcher
