

Dear Committee Members,

I am Charles S Tindall residing in Columbia County in the small town of Warren.

The upcoming redistricting efforts should be a thoughtful and non-partisan decision. Please understand we are a small town of farmers with some trades. Our life style and concerns are directly opposite of the greater Portland Metro area. As you have seen on the National News, we do not want those types of government decisions made in our County! If even a small amount of the Portland Metro were to show up in our County our voice would be drown out as it relates to our life style.

Please consider our small town communities and way of life that we are not drowned out by the big city life style!!

Thanks for considering us,
Charlie
