

My name is William Nowling and I am against redistricting for it is just another expense that the taxpayers of Oregon pay for that is not fully justified. We pay our taxes and expect those that represent us to spend those funds wisely. With all the devastation there has been in Oregon with the fires, riots, and other economic disasters, this seems pretty trivial in comparison. I can only assume that its only objective here is to expand the territory for Multnomah, and other large counties to have more power over the smaller counties. I simply cannot agree to that. Little counties should be left alone to make their own communities what THEY want them to be. That is why we have a government in the small towns. No one here that I can think of thinks redistricting is necessary and like me, will fight back at the ballot box. I again ask that you say NO to redistricting and stop the gerrymandering.

Sincerely

William Nowling

Columbia County resident
