

Hello,

I live in rural Columbia County with a Scappoose address. I am lumped in with a chunk of metro which has no idea or understanding to my way of life. While I respect their values as being different than mine, my values are not valued in reciprocity. Because they have a higher population, the Metro population is dominating the elections and leaving my voice unheard.

Please consider my voice and don't continue to leave me unheard.

Thank you,  
-Eric Michael
