

Dear Legislators:

I have a simple request in regards to your deliberations about the 2021 redistricting process.

As I am sure you are aware, there was an effort to propose a non-partisan solution to Oregon's redistricting process. The effort was called People not Politics. Unfortunately, the proposition did not receive enough signatures to move it forward. However, it was a well thought out proposal to handle Oregon's redistricting in a balanced, non-partisan way.

Our previous methodology was heavily influenced by partisan politics which was manipulative and unfair to Oregon voters. I urge you to adopt the People not Politics solution for the upcoming redistricting.

Thank you, in advance, for considering my suggestion.
