BACKGROUND:

Current law requires school districts to adopt policies prohibiting harassment, intimidation, bullying, and cyberbullying. Such policies apply to behavior at school-sponsored activities, on school-provided transportation and at official school bus stops in addition to school campuses. School employees are required to report acts of harassment, intimidation, bullying, and cyberbullying to school officials identified in a school district's policy. Policies must also contain procedures for investigating reported incidents and taking remedial action.

House Bill 2631 A adds a requirement that a school district notify parents or guardians if a student is bullied or harassed under certain circumstances.
