

Support SB 282A

Critical Protections for Renters After the Eviction Moratorium

The eviction moratorium ends on June 30th, 2021. Senate Bill 282A will keep people safe in their homes by extending the grace period for repayment of back rent. This will protect housing stability while also allowing time for hundreds of millions of dollars in federal rent assistance to reach landlords to reimburse back rent.

Good Process

- SB 282A passed with bipartisan support from the Senate Housing & Development Committee.
- SB 282A final amendments came from a workgroup of tenant advocates and landlord groups.
- SB 282A final amendments had no opposition.

Good Bill

- SB 282A extends the grace period to pay COVID-era back rent through February, 2022
- SB 282A allows families and others displaced by COVID, wildfire or other crisis to temporarily share housing without fear of eviction, within the parameters of local, state, or federal law.
- SB 282A protects COVID-era rental and credit records from being used against people when they apply to rent in the future.

There is more than a half a billion dollars in federal rental assistance coming into Oregon in the next few months. SB 282A will give people enough time to get the help they need to get back on their feet as Oregon starts to come out of the pandemic.

The Stable Homes for Oregon Families Coalition and Senator Deb Patterson urges you to vote yes on SB 282A. Thank you.
