Prepared By: Wenzel Cummings, LPRO Analyst

Meeting Dates: 3/4, 4/13

WHAT THE MEASURE DOES:

Permits counties to authorize the Department of Administrative Services to deduct from the amount allocated to counties for economic development activities from net receipts of video lottery games up to 50 percent of the funding necessary to support the salaries and benefits of regional solutions coordinators.

ISSUES DISCUSSED:

- Effectiveness of Regional Solutions Program
- Effect of COVID-19 pandemic on Regional Solutions Program
- Agreement by counties to cover 50 percent of cost of regional solutions coordinators

EFFECT OF AMENDMENT:

Replaces the measure.

BACKGROUND:

In 2013, the Legislative Assembly passed House Bill 2620, which directed the Governor, in coordination with the Director of the Oregon Department of Administrative Services, to develop a plan to align state economic and community development programs with regional priorities. Enacted by the Legislative Assembly in 2014, the Regional Solutions Program within the Governor's office consists of regional solutions centers, teams, and advisory committees. The Program works with state agencies, local governments, and other entities to develop and coordinate regional implementation projects and to identify regional priorities for community and economic development.

Eleven regional solutions teams are located at centers located throughout the state, and each team includes a regional solutions coordinator. The teams work in conjunction with regional solutions advisory committees to address regional issues and leverage funding opportunities for regional growth.

House Bill 2173 A permits counties to authorize the Department of Administrative Services to deduct from the amount allocated to counties for economic development activities from net receipts of video lottery games up to 50 percent of the funding necessary to support the salaries and benefits of regional solutions coordinators.
