SUMMARY

Directs Oregon Health Authority or local public health administrator to release aggregate information about reportable disease investigations that does not identify individual cases or sources of information, upon receipt of public records request.

Declares emergency, effective on passage.

OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure requires the Oregon Health Authority or a local public health administrator to release aggregate information about reportable disease investigations that does not identify individual cases or sources of information in response to a public records request seeking records related to an investigation of a reportable disease or disease outbreak.

This measure subjects those public records to mandatory disclosure under public records law.
