“Whereas two studies conducted by the American Civil Liberties Union found that Black Oregonians were about twice as likely to be arrested for cannabis as compared to White Oregonians, despite nearly identical rates of use; and

“Whereas a 2013 American Civil Liberties Union study found that the cannabis arrest rate was 3.3 times higher for individuals who are Black than individuals who are White in Multnomah County, 2.8 times higher in Washington County, 3.5 times higher in Lane County and 2.8 times higher in Marion County; and

“Whereas the Oregon Criminal Justice Commission found that African Americans and Native Americans in Oregon are overrepresented as compared to individuals who are White for convictions of felony possession of controlled substances; and

“Whereas Oregon’s prison population, both historically and presently, shows an overrepresentation of Oregon’s minority groups; and

“Whereas in 2013, simple cannabis possession was the fourth most common cause of deportation for any offense and the most common cause of deportation for drug law violations; and

“Whereas fewer than 200 cannabis-related expungements have been processed since section 2, chapter 459, Oregon Laws 2019 (Senate Bill 420 (2019)) was enrolled, although there are over 28,000 records with eligible cannabis crimes; and

“Whereas the term ‘marijuana’ was adopted historically to underscore the drug’s ‘Mexican-ness’ to incite anti-immigrant sentiments, which found its way into Oregon through early 20th century newspapers with articles titled, ‘Crazed Mexican Kills One and Wounds Two,’ ‘Evil Mexican Plant that Drives You Insane’ and ‘Texas Menaced by New ‘Dope’ Weed’; and

“Whereas 2019 cannabis sales in Oregon reached $725.8 million, not including medical cannabis sales; and

“Whereas cannabis website Leafly’s fourth annual national report estimated that there were 18,274 jobs in the legal marijuana industry in Oregon as of January 2020; and

“Whereas the vast majority of marijuana businesses are self-funded, with 84 percent of businesses utilizing the founder’s savings to launch the business while only one percent of businesses were able to secure a bank or state agency loan; and

“Whereas very few minority-owned businesses can afford the average start-up costs to open a plant-touching cannabis business, which the Oregon Cannabis Association estimates at $400,000 in start-up capital; and
“Whereas a 2017 snapshot of the cannabis industry showed that less than three percent of
plant-touching cannabis businesses were Black-owned and less than six percent were Hispanic- or
Latinx-owned; and

“Whereas for those individuals who were formerly incarcerated, a recent analysis by the Prison
Policy Initiative shows that more than 27 percent are unemployed, which is a higher rate than the
overall unemployment rate during the Great Depression; and

“Whereas according to John Jay College of Criminal Justice, ex-offenders owe as much as 60
percent of their income to criminal debts; and

“Whereas according to Pew Charitable Trusts, serving time in prison reduces a person’s annual
earnings by 40 percent; and

“Whereas according to Pew Charitable Trusts, by 48 years of age, the typical former inmate
will have earned $179,000 less than if they had never been incarcerated; and

“Whereas according to Pew Charitable Trusts, incarceration depresses the total earnings of
White males by two percent, Hispanic males by six percent and Black males by nine percent; and

“Whereas according to Pew Charitable Trusts, the average family income over the years during
which the father is incarcerated is 22 percent lower than the family income was in the year before
the father was incarcerated, and even in the year after the father is released from incarceration, the
family income remains 15 percent lower than in the year before incarceration; and

“Whereas the homeownership rate for White Oregonians is 65 percent, 36.5 percent for African
American Oregonians, 48.4 percent for Native American Oregonians and 45.9 percent for Latinx
Oregonians; and

“Whereas a 2015 Portland Housing Bureau report revealed approximately 68.8 percent of Black
renters and 42.9 percent of Black homeowners are cost-burdened and spend over 30 percent of their
income on rent or housing costs; and

“Whereas programs to support small business were not designed with the Black community in
mind, as evident through the mechanisms and outcomes from the CARES Act (2020) Paycheck Pro-
tection Program in which only 51 percent of Black-owned small businesses applied for less than
$20,000 in temporary funding from the federal government and only one in 10, or 12 percent, re-
cived the assistance that they requested; and

“Whereas only 13.1 percent of White Oregonians live in poverty but 28.7 percent of Black
Oregonians live in poverty, 22.3 percent of Hispanic Oregonians live in poverty and 24.4 percent of
Native American Oregonians live in poverty; and

“Whereas according to Prosperity Now, White households in the middle-income quintile, or those
earning between $37,201 and $61,328 annually, own nearly eight times as much wealth, or $86,100,
as middle-income Black earners who earn $11,000 and 10 times as much wealth as middle-income
Latinx earners who earn $8,600; and

“Whereas according to Prosperity Now, if the number of people of color-owned firms were pro-
portional to the distribution of people of color in the labor force, people of color would own 1.1
million more businesses with employees and would add about nine million jobs and about $300
million in workers’ income to the United States economy; and

“Whereas in Oregon, the number of United States Small Business Administration loans to
Black-owned businesses dropped by more than 90 percent in 2008 to five loans and has remained in
the single digits every year since, and in 2017 the United States Small Business Administration
backed only three loans to Black-owned businesses in Oregon; and

“Whereas according to McKinsey & Company, companies in the top quartile for ethnic and
cultural diversity on their executive teams were 33 percent more likely to have above-average profitability than companies in the fourth quartile, and companies with the most ethnically and culturally diverse boards worldwide are 43 percent more likely to experience higher profits; and

“Whereas a 2020 study completed by Citi Global Perspectives and Solutions found that if the racial wealth gap were closed 20 years ago, $16 trillion could have been added to the United States economy and if the gap were closed today, $5 trillion could be added over the next five years; and

“Whereas cannabis equity programs in other states and municipalities using the race neutral qualification standards have failed to create equitable market participation and leverage the benefits of diversity; now, therefore.”,
