Senate Bill 387

Sponsored by Senators DEMBROW, GORSEK (Presession filed.)

SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure as introduced.

Limits exemption from requirement of obtaining water right application, permit or certificate to use of surface water for livestock watering that does not exceed 5,000 gallons a day.

Limits exemption from requirement of obtaining registration, certificate of registration, application for permit, permit, certificate of completion or ground water right certificate to use of ground water for stock watering purposes that does not exceed 5,000 gallons a day.

Declares emergency, effective on passage.

A BILL FOR AN ACT

Relating to stock watering; creating new provisions; amending ORS 537.141 and 537.545; and declaring an emergency.

Be It Enacted by the People of the State of Oregon:

SECTION 1. ORS 537.141 is amended to read:

537.141. (1) The following water uses do not require an application under ORS 537.130 or 537.615, a water right permit under ORS 537.211 or a water right certificate under ORS 537.250:

(a) Emergency fire-fighting uses;

(b) Nonemergency fire-fighting training, provided:

(A) The source of the water is existing storage and the use occurs with permission of the owner of the stored water; or

(B) If the source of water is other than existing storage, the use occurs with the prior written approval of the watermaster in the district where the training will take place and subject to any conditions the watermaster determines are necessary to prevent injury to existing water rights and to protect in-stream resources;

(c) Water uses that divert water to water tanks or troughs from a reservoir for a use allowed under an existing water right permit or certificate for the reservoir;

(d) Fish screens, fishways and fish by-pass structures, as exempted by rule of the Water Resources Commission;

(e) Land management practices intended to save soil and improve water quality by temporarily impeding or changing the natural flow of diffuse surface water across agricultural lands when storage of public waters is not an intended purpose. Such practices include but are not limited to:

(A) Terraces;

(B) Dikes;

(C) Retention dams and other temporary impoundments; and

(D) Agronomic practices designed to improve water quality and control surface runoff to prevent erosion, such as ripping, pitting, rough tillage and cross slope farming;

(f) Livestock watering operations that comply with the requirements under subsections (2) and (3) of this section;

NOTE: Matter in **boldfaced** type in an amended section is new; matter [*italic and bracketed*] is existing law to be omitted. New sections are in **boldfaced** type.

LC 1718
(g) Forest management activities that require the use of water in conjunction with mixing pesticides as defined in ORS 634.006, or in slash burning;

(h) The collection of precipitation water from an artificial impervious surface and the use of such water;

(i) Land application of ground water so long as the ground water:
   (A) Has first been appropriated and used under a permit or certificate issued under ORS 537.625 or 537.630 for a water right issued for industrial purposes or a water right authorizing use of water for confined animal feeding purposes;
   (B) Is reused for irrigation purposes and the period of irrigation is a period during which the reused water has never been discharged to the waters of the state; and
   (C) Is applied pursuant to a permit issued by the Department of Environmental Quality or the State Department of Agriculture under either ORS 468B.050 to construct and operate a disposal system or ORS 468B.215 to operate a confined animal feeding operation; and

(j) Surface mining practices that result in the removal of water from a surface mine subject to an operating permit or reclamation plan approved by the State Department of Geology and Mineral Industries, unless the water is used for a subsequent beneficial use.

(2) The use of surface water for livestock watering may be exempted under subsection (1) of this section if:

(a) The water is diverted from a stream or other surface water source to a trough or tank through an enclosed water delivery system;

(b) The delivery system either is equipped with an automatic shutoff or flow control mechanism or includes a means for returning water to the surface water source through an enclosed delivery system; and

(c) The operation is located on land from which the livestock would otherwise have legal access to both the use and source of the surface water source.

(d) The amount of surface water used does not exceed 5,000 gallons a day.

(3) If the diversion system described in subsection (2) of this section is located within or above a scenic waterway, the amount of water that may be used without a water right is limited to one-tenth of one cubic foot per second per 1,000 head of livestock. Nothing in this section shall prevent the Water Resources Commission from approving an application for a water right permit for a delivery system not qualifying under subsection (2) of this section.

(4) The Water Resources Department, in conjunction with local soil and water conservation districts, the Oregon State University Extension Service, the State Department of Agriculture and the State Department of Fish and Wildlife and any other organization interested in participating, shall develop and implement a voluntary educational program on livestock management techniques designed to keep livestock away from streams and riparian areas.

(5) To qualify for an exempt use under subsection (1)(g) of this section, the user shall:

(a) Submit notice of the proposed use, including the identification of the proposed water source, to the Water Resources Department and to the State Department of Fish and Wildlife at the time notice is provided to other affected agencies pursuant to ORS 527.670; and

(b) Comply with any restrictions imposed by the department pertaining to sources of water that may not be used in conjunction with the proposed activity.

(6) Except for the use of water under subsection (1)(i) of this section, the Water Resources Commission by rule may require any person or public agency diverting water as described in subsection (1) of this section to furnish information with regard to such water and the use thereof.
a use of water described in subsection (1)(i) of this section, the Department of Environmental Qual-
ity or the State Department of Agriculture shall provide to the Water Resources Department a copy
of the permit issued under ORS 468B.050 or 468B.215 authorizing the land application of ground
water for reuse. The permit shall provide the information regarding the place of use of such water
and the nature of the beneficial reuse.

SECTION 2. ORS 537.545 is amended to read:
ORS 537.545. (1) No registration, certificate of registration, application for a permit, permit, certif-
cicate of completion or ground water right certificate under ORS 537.505 to 537.795 and 537.992 is
required for the use of ground water for:
(a) Stock watering purposes in an amount that does not exceed 5,000 gallons a day;
(b) Watering any lawn or noncommercial garden not exceeding one-half acre in area;
(c) Watering the lawns, grounds and fields not exceeding 10 acres in area of schools located
within a critical ground water area established pursuant to ORS 537.730 to 537.740;
(d) Single or group domestic purposes in an amount not exceeding 15,000 gallons a day;
(e) Down-hole heat exchange purposes;
(f) Any single industrial or commercial purpose in an amount not exceeding 5,000 gallons a day;
or
(g) Land application, so long as the ground water:
(A) Has first been appropriated and used under a permit or certificate issued under ORS 537.625
or 537.630 for a water right issued for industrial purposes or a water right authorizing use of water
for confined animal feeding purposes;
(B) Is reused for irrigation purposes and the period of irrigation is a period during which the
reused water has never been discharged to the waters of the state; and
(C) Is applied pursuant to a permit issued by the Department of Environmental Quality or the
State Department of Agriculture under either ORS 468B.050 to construct and operate a disposal
system or ORS 468B.215 to operate a confined animal feeding operation.
(2) A ground water use for a purpose that is exempt under subsection (1) of this section, to the
extent that the use is beneficial, constitutes a right to appropriate ground water equal to that es-
(tablished by a ground water right certificate issued under ORS 537.700.
(3) Except for the use of water under subsection (1)(g) of this section, the Water Resources
Commission by rule may require any person or public agency using ground water for any such
purpose to furnish information with regard to such ground water and the use thereof. For a use of
water described in subsection (1)(g) of this section, the Department of Environmental Quality or the
State Department of Agriculture shall provide to the Water Resources Department a copy of the
permit issued under ORS 468B.050 or 468B.215 authorizing the land application of ground water for
reuse. The permit shall provide the information regarding the place of use of such water and the
nature of the beneficial reuse.
(4) If it is necessary for the Water Resources Department to regulate the use or distribution of
ground water, including uses for purposes that are exempt under subsection (1) of this section, the
department shall use as a priority date for the exempt uses the date indicated in the log for the well
filed with the department under ORS 537.765 or other documentation provided by the well owner
showing when water use began.
(5) The owner of land on which a well is drilled to allow ground water use for a purpose that
is exempt under subsection (1) of this section shall provide the Water Resources Department with
a map showing the exact location of the well on the tax lot. The landowner shall provide a map

[3]
required by this subsection to the department no later than 30 days after the well is completed. The
map must be prepared in accordance with standards established by the department.

(6) The owner of land on which a well described in subsection (5) of this section is located shall
file the exempt ground water use with the Water Resources Department for recording. The filing
must be accompanied by the fee described in subsection (7) of this section. The filing must be re-
ceived by the department no later than 30 days after the well is completed.

(7) The Water Resources Department shall collect a fee of $300 for recording an exempt ground
water use under subsection (6) of this section. Moneys from fees collected under this subsection
shall be deposited to the credit of the Water Resources Department Water Right Operating Fund.
Notwithstanding ORS 536.009, moneys deposited to the fund under this subsection shall be used for
the purposes of evaluating ground water supplies, conducting ground water studies, carrying out
ground water monitoring, processing ground water data and the administration and enforcement of
this subsection and subsections (3), (5), (6) and (8) of this section.

(8) The Water Resources Commission shall adopt rules to implement, administer and enforce
subsections (5) to (7) of this section.

SECTION 3. (1) The amendments to ORS 537.141 and 537.545 by sections 1 and 2 of this
2021 Act do not apply to uses of water existing before the effective date of this 2021 Act.

(2) The amendments to ORS 537.141 and 537.545 by sections 1 and 2 of this 2021 Act apply
to any enlargement of a water use that existed before the effective date of this 2021 Act, if
the enlargement occurs on or after the effective date of this 2021 Act.

SECTION 4. This 2021 Act being necessary for the immediate preservation of the public
peace, health and safety, an emergency is declared to exist, and this 2021 Act takes effect
on its passage.
