“Whereas it is essential to the future health of our country and this state that all Oregonians be knowledgeable about democratic principles and practices; and

“Whereas the most recent civics assessment of the National Assessment of Educational Progress indicates that only 24 percent of high school seniors test at or above proficiency level in civics, and that more than one-third of high school seniors lack even a basic grasp of the structure and operation of American government; and

“Whereas students who have a clear and full understanding of the rights and responsibilities of participants in a democracy are more likely to exercise and defend those rights and responsibilities; and

“Whereas independent studies demonstrate that well-designed civics education programs foster an understanding and appreciation of democracy and the skills for participation in a democratic society; and

“Whereas required civics education would help students in this state to acquire and learn the use of skills, knowledge and attitudes that will prepare them to be competent and responsible participants in their communities and in our democratic processes throughout their lives; and

“Whereas required civics education will advance equity in this state by ensuring that students from historically disenfranchised groups have the skills and knowledge to actively and effectively participate in their communities; and

“Whereas Americans of all backgrounds overwhelmingly agree that providing civics education is the measure that would have the most positive impact on strengthening our national common identity; and

“Whereas providing civics education and promoting good citizenship and understanding of fundamental principles should be a core mission of the schools of this state; now, therefore,”.
