The commission shall apply the surcharge on a telecommunications circuit designated for a particular subscriber. For cellular, wireless or other radio common carriers, the surcharge must be applied on a per instrument basis and only to subscribers whose place of primary use, as defined and determined under 4 U.S.C. 116 to 126, is within this state.

(b) For purposes of this subsection, the commission shall adopt by rule the definition for “interconnected voice over internet protocol service.” The rule defining “interconnected voice over internet protocol service” must be consistent with the definition for “interconnected VoIP service” in 47 C.F.R. 9.3.

(3) The commission annually shall review the surcharge and the balance in the Residential Service Protection Fund established under ORS 759.687 and may make adjustments to the amount of the surcharge to ensure that the fund has adequate resources, provided that the fund balance does not exceed six months of projected expenses.

(4) Moneys collected pursuant to the surcharge may not be considered in any proceeding to establish rates for telecommunication service.
