4 **“SECTION 1. (1) The State Board of Forestry shall:**

5 **“(a) Periodically review rules adopted under ORS 527.710 (2)(b) that**
6 **relate to streams, channels and tributaries that have domestic water**
7 **use.**

8 **“(b) Update the rules consistent with:**

9 **“(A) Current science;**

10 **“(B) Best management practices, as described in ORS 527.765; and**

11 **“(C) Standards established under authority of the federal Safe**
12 **Drinking Water Act and Clean Water Act to reduce risk and prevent**
13 **degradation of waters used as drinking water sources.**

14 **“(2) In performing the periodic reviews and determining if updates**
15 **to the rules are needed, as required by subsection (1) of this section,**
16 **the board shall:**

17 **“(a) Consult the Department of Environmental Quality and the**
18 **Oregon Health Authority.**

19 **“(b) Request written input from the department and authority as**
20 **to whether the rules need to be updated to prevent, alleviate or reduce**
21 **environmental or public health impacts.**

1 “(c) Refer to the department all questions about the environmental
2 impacts of the rules being reviewed.

3 “(d) Refer to the authority all questions about the public health
4 impacts of the rules being reviewed.

5 “(3) Upon request by the board pursuant to subsection (2) of this
6 section, the department and authority shall provide written input to
7 the board as to whether the rules need to be updated to prevent, alle-
8 viate or reduce environmental or public health impacts, based on
9 current science and best management practices.

10 “(4) The board shall periodically assess whether the classification
11 for streams, channels and tributaries that have domestic water use
12 has been properly applied.

13 “(5) If the board determines, pursuant to subsection (4) of this sec-
14 tion, that the classification has not been properly applied, the board
15 shall remap the streams, channels and tributaries.

16 “(6) The board shall adopt rules establishing a process for deter-
17 mining whether additional watershed-specific rules are needed for
18 watersheds that encompass a surface-based stream used as a source
19 of drinking water and for which evidence indicates that forest prac-
20 tices pose a serious risk to continued use of the stream as a source
21 of drinking water.”.
