

I am not for any more tax! We have all been taxed to death, you are killing not only citizens but farmers, ranchers, loggers, miners and small businesses. We ALL rely on these things and people. I 150% agree with Angelita Sanchez it could not have been said better. The attack on the Oregon people needs to stop.

Doing these sessions behind closed doors is beyond shameful. Not allowing people to be there and making it damn near impossible for people to have a real say in what's going on in our capital is appalling.
