

Even these proposals are tearing this country apart. People swear an oath to defend and uphold the Constitution and turn their back on the second one. States with the highest gun violence have the strictest gun control and it amplifies the issue. If this were to pass or any other gun restriction/regulation; it will surely divide this country as it INFRINGES on our rights and doe's not listen to half the country, secondly it will promote more violence because people who follow the law will be restricted and criminals (individuals who break the law) will continue to be criminals. While seeing no prosecution from judges and district attorneys.
