

Responsible gun ownership is practiced by hundreds of thousands of Oregonians. Those are the people who will be harmed by this legislation. Criminals who are committing violence here in Oregon will not obey this law. Violent crime is on the rise in Oregon, not from law abiding citizens, but from violent criminals who have been emboldened by state officials allowing continued violent riots to go unpunished. Making it more difficult for any Oregonian to defend themselves will only increase the amount of violence criminals commit. Please do Oregon justice by not supporting this bad legislation or any other attack on our freedom by those who would allow criminals to go free while reducing our ability to defend against those who would do harm.

Thank you,  
Andrew Hall
