

To whom it may concern,

I vehemently oppose this bill, along with all of the other gun control bills currently being proposed and/or voted on. Little by little you continue to try and strip our constitutional rights away. You all swore an oath to our Constitution and whether you like it or not, the 2nd Amendment is part of the Constitution. The phrase "shall not be infringed" is a pretty cut and dry phrase.

Yet here we are. Our world is getting more and more dangerous and criminals are getting more and more brazen. So in response to this, you propose a ridiculous bill that will render me all but useless should I, Heaven forbid, ever need to defend my family and my home. Instead of trying to make criminals out of otherwise upstanding law abiding citizens, why don't you go to work on things that will make Oregon a better place to live? I don't know - maybe figure out how to improve our utterly inferior highway system as one example. Or is it your goal to continue having people move out of the state?

Please stop this assault on our right to bear arms to defend ourselves.

With respect,
Heinz Mueller
