

I believe this bill violates my second amendment right to bear arms. I am a well trained CHL holder and handle my guns responsibly... the problem is that criminals that threaten my family don't care about laws or legislation and this bill would render my right to protect myself and my family useless and violate my rights above and beyond how the criminals could violate my and my families rights should I not be able to legally protect myself.

Additionally, by putting the blame and ownness on the gun owner, not the criminal, who are you really punishing?

I am all for gun rules and regulations regarding required certified training Borneo yo getting a CHL or owning a gun, but to render my 2nd amendment right useless is unconstitutional.

Thank you for your attention to responsibly wording this and future bills from a bipartisan, not bias leadership position.

Regards,
Neal Kerner
