

My name is John Woods, I am an Oregonian, a private citizen, a veteran and a law abiding gun owner. I am speaking against HB 2510 which is an attempted unconstitutional search because it tries to dictate and ascertain how people store their firearms.

Let me state this clearly " I STORE MY FIREARMS SAFELY."
That is all you need to know and all you are going to know !

The Second Amendment states " the people's rights to bear arms shall not be infringed." The Fourth Amendment states " the people shall be safe from unwarranted search's and seizures." And the Fifth Amendment states " the people's property cannot be seized without due process." and " the people cannot be forced to incriminate themselves." With these rights spelled out and the power and scope of your office falling way short of being able to rescind or abolish any Amendments I WILL NOT COMPLY.

With my stated rights listed here all I am going to say is
"I STORE MY FIREARMS SAFELY.

You do not,nor will you ever have the right to enter my home, to search or even know what I have in my house without a warrant. I will not show, report or even answer any questions on how I store my firearms. Your reach ends at my front door because the Fourth Amendment states " the people are safe from unwarranted searches and seizures."

My final points: Since you do not have the power or the reach to change or abolish the Bill of Rights " I WILL NOT COMPLY ! I WILL NOT PLEAD GUILTY TO SOMETHING I HAVE NOT DONE, NOR WILL I SURRENDER MY FREEDOM, RIGHTS AND LIBERTIES TO LEGISLATIVE TYRANTS.

This Bill HB 2510 will be another monumental waste of time, money and resources. And will be struck down as unconstitutional. I have a suggestion for those legislators who want to be seen as social justice crusaders. FIX PERS !! Otherwise stop wasting other peoples time.
