

I support this bill because I rather have people in their homes and not forced to live on the streets. When you live on the streets and find a safe place with others where the community helps with sanitation, food and health care Ted Wheeler will come and sweep it away. Many people become homeless for many reasons, this will help do many stay in their home when times get hard so they can survive and try again with warm water and electricity and shelter. We don't need traumatizing evictions, we need understanding and working together to make a better life for all of us. This will put a lot of peoples minds at ease. Please pass this and know it's for the greater good!
