

The second isn't about Hunting...My forefathers would be rolling over in their graves....Apparently you don't understand what freedom and America is all about! As you invite criminals and terrorists from all over the world my grandchildren and theirs are less safe...Your job is just the opposite! It's clear as can be the you're out to destroy America and that it isn't the average American that the real threat to freedom and America is you!....Turning the country into Somalia isn't going to be good for you eitherYou must be totally paranoid (that's no way to live). The Soros agenda is 1939 Germany and to revenge Hitler....He is a real NAZI. As for the Chinese Out totally corrupt politicians that bend over for every back stabbing whim of the communist ain't going over real well... Liberals have been lied to and brainwashed to believe America is bad to kill your babies and hate everyone who doesn't think like you....Check out Marxism and Stalin....You won't want to live in that world either.....But that is the path you're on...Dividing for power is criminal...

It doesn't take a guineas to see what is destroying America and it isn't mom and apple pie! There's always room for improvement but destruction is not a positive it will cost the lives of many.....Time to truly Wake up.... M.D. Stewart 1845 Oregonian
