

I support HB 2725  
Regarding HB 2725

As a kayaker and stand up paddler, why should I be forced to go somewhere else to enjoy myself? I live in Wilsonville and this is the closest place for me.

My craft leaves no trace.

My craft is not causing erosion or any large wakes that interfere with others enjoyment.

The other folks with big wakeboats can go to a more appropriate place where they can enjoy their sport with others like themselves, imagine the fun they would have hanging out with like-minded people, rather than having to endure the wrath of the paddlers:)

They say I should take my sport elsewhere, that is not fair because I'm not the one causing the problem.
