

SB 223

STRONGLY OPPOSE SB 223.

What does it mean or say about the Government school system when droves of families are leaving? It says they want to get AWAY from you, they dont want anything to do w/ you! Oregon Dept of Education croonies are hand selected confused people , they don't even know the difference between a male & a female. ODE along w/ OHA kept OR schools closed during COVID for obvious political reasons, showing your true colors of money over kids! ODE increased the educational gaps, suicides, depression, &took families out of the workforce! During this same time private schools got to work & educated their kids. So why would anybody in their right mind allow a FAILED anti-science goverment system take over a successful private one?? Iam sure this has something to do w/ the "equity" hype, the only thing "equity" does is LOWER ALL STANDARDS! NO, we do not consent to lowering our kids standards... LEAVE PRIVATE SCHOOL ALONE!!

Iam not even a private school Mom, we homeschool.
