

This is dumb. What in the world are we doing 156 years AFTER slavery was abolished in this country - this is nonsensical. There are no black slaves living today and there are no white slaveholders living today. Let's move FORWARD as a country and not live in the past. This is ridiculous virtue signaling and it is not needed. This will further divide the country and breed bitterness and contempt for our fellow countrymen by forcing white people to atone for their nonexistent sins. SB 619 is racist and not fair; to make someone pay someone else just based on skin color is dehumanizing. How will this even work? There are so many people in this country who are mixed and who have intermarried, proof that racism at large is dead. This is a complete waste of time and taxpayer dollars. Oppose HB 619.
