

I consider my firearm a critical life insurance policy. I hope to never have to use it but if I do I need it available immediately. When seconds count once is only minutes away. This bill takes those critical seconds away from me.
I have insurance because I am responsible for my well-being. I own a gun because I am responsible for the safety of the ones I love.
Locks only keep honest people honest, criminals and thieves are inherently dishonest.
My right to self-defense was foremost in the minds of the writers of the Constitution. That is why they wrote the second amendment.
I feel that this bill infringes on that right, and is therefore unconstitutional.
