

This bill is the epitome of stupid. High school sophomores don't have adult brain development to make good judgment no matter how smart they are. Good judgment isn't something teens can excel in. The rational part of a teen's brain isn't developed until early 20's and isn't completely developed until age 25. In fact, recent research has found that adult and teen brains work differently. Adults think with the prefrontal cortex, the brain's rational part. This is the part of the brain that responds to situations with good judgment and an awareness of long-term consequences. Teens process information with the amygdala. This is the emotional part. But all the immaturity aside we know what this is all about. Each year more indoctrinated children are churned out from schools, the democrats want to keep their grips on power and never have to relinquish it again and what better way to do that than to open up 3 more school grade years worth of kids who have been brainwashed by liberal progressive teachers and an liberal progressive legislature with an agenda. Stop acting like commie tyrants and keep your hands off of our children and our constitution.
