

Please vote YES for HB 2358. I believe Agriculture workers should be paid fairly as everyone else, they are and have been frontlines to many casualties such as pandemic and wildfires where they have been and still are getting exposed to many health problems. Agriculture workers are the reason America is still getting feed today. It is time they get treated fairly. They deserve for HB 2358 to pass. They deserve this and so much more. This is the first step.
