

Testimony summary for Pamela Rogers (submitted on Ms. Rogers' behalf by her attorney, Tara Herivel, 3/8/21):

Pamela Rogers is incarcerated at Coffee Creek Correctional Institution. She has serious medical conditions that went untreated until current litigation in her habeas case. She will testify that waiting almost a year as her case winds through the court to receive critical care (like needed cancer screening) could have been avoided by having a health care advocate under HB 3035 help instead.

Ms. Rogers will testify by phone assisted by attorney Tara Herivel.
