

I am Michael Allen from Florence, Oregon. I am the founder of the Florence Climate Emergency Campaign and the leader of Elders Climate Action Oregon Chapter. I and both organizations recognize the need for equity in all the actions we take to address our climate emergency. That includes all efforts taken by the state of Oregon and local governmental entities who apply restrictions on the use of our lands, watersheds and coastal beaches. Please support the passage of HB 2488, "Climate Equity and Oregon's Land Use."
