

Dear Committee:

I urge you to support HB 2555 and HB 2695 to protect the nurseries of the river. These nurseries, that create habitat and food for many river species, are the very nearshore areas that are harmed by artificial waves generated by many towed water sports boats.

By passing HB 2555 and HB 2695, you can limit the huge weight of towed water sports boats to 4,000 lbs (which should be river-wide), and can create a more representative OSMB to better incorporate protection of the nurseries of the river, protect private property, and protect other river users.

Today these boats are far too big and powerful for the fragile environment in this area, and the OSMB is too limited in its representation.

Thank you for supporting these two bills.

Sincerely,

Harriet Stosur
