

Representatives,

This is a solution in need of a problem, gun crimes are tragic and accidents more so. This bill is well-intentioned but the irresponsible gun owners who do not already follow these standard safety practices are not going to suddenly change their behavior by us passing another bill. Please don't infringe further on the gun rights of our citizens. We need to hold people accountable for their actions, not the tools that are helpful for so many in our society

Jared Carkin
