

I am a retired police chief with 42 years of law enforcement experience. I urge a NO vote on this unnecessary legislation. Secured, locked, firearms offer no protection for law abiding citizens when the need for a firearm for self defense exists. There are very few, if any, instances of an unlocked firearm being misused in this state or causing injury to an innocent person. This is but one more piece of "feel good" legislation which accomplishes nothing other than to make law abiding, responsible firearms owners criminals. The real criminal element will ignore this law as they do all other firearms laws.
