

My name is Parker and I grew up in West Linn. I spent my summers on the river with my friends and family wakeboarding and surfing, and tubing, and fishing, and kayaking, and my memories are of all the times during the summer when the river was our escape. As a teenager I was employed by Active Watersports, and I saw families come in and buy boats to make those same memories. Please don't take that away from us! Vote no on HB 2725
