

Greetings,

As a concerned firearms owner with locked, secured guns, I have a couple questions regarding the wording of the bill,

Apparently the leave testimony link is not working properly (MacBook Air 10.14.6 Safari AND Chrome browsers-latest)

1.If I trade a gun, with a lock to a dealer for a new model or I send my gun to a gunsmith (mine is great but he can take months) I remain responsible for two years AFTER the firearm leaves my possession and is legally on a dealer or gunsmith's BATFE Fire Arms Record Log? That seems quite unfair as I have no control over resale or what happens if someone breaks into my gunsmith.

2. Ruger makes good guns and gives you a great lock with every gun. However, according to the wording, I am guilty if a lock can be defeated? All locks can be defeated. A few years ago, one of my "unbreakable" Kryptonite Brand U Locks secured my \$750 street bike to a very thick, city installed, theft proof post. A \$20 can of wart spray (liquid nitrogen) and a \$5 hammer and the lock shattered and the thief rode off never to be caught. Please tell me where I may obtain locks that cannot be "defeated"

Please make laws that make sense and enter my testimony

Thank you
