Re: I OPPOSE [HB 3252] and [HB 3253]...Is Oregon forming a "Drug-cartel" with participating states?

Marijuana is now right up there with Tillamook Cheese and Ice Cream.

Which one of the aforementioned will "kill" you faster?

Cheese and ice cream will clog your arteries but, marijuana will not or will it (formation of blood clots)?

Well, one cannot readily smoke cheese and ice cream like marijuana-although you can eat it.

Eating marijuana may be a very healthy alternative to smoking it because, at least you'll get some dietary fiber along with your chuckles but, you better check with the Oregon Health Authority.

You should consider asking the Oregon Health Authority which is more dangerous to the respiratory system; marijuana smoke or cigarette smoke?

My guess is marijuana smoke is far more dangerous. Especially, if one is stupid enough to "vape" marijuana smoke into their lungs (complete saturation of the surface area of the lungs).

Will Oregon marijuana come with product warning labels?

You also must make sure, the warning labels are not combustible, less someone might try to smoke them too.

Can you imagine it-Oregon as an interstate drug dealer?

Through [HB 3252] and [HB 3253] it appears Oregon is forming a "Drug-cartel" with other states.

I guess the old adage of, "If you can't beat them-join them" is in play.

What are we going to call Governor Brown, the leader of the Oregon cartel?

How about, "La Chapa Morróna?"

Nah, it's not scary enough.

Governor Brown being in charge of Oregon is far more frightening.

Respectfully submitted,

/s/ David S. Wall
