

I am not against people owning guns. However I am against people owning guns and leaving them where they can be picked up by a child or stolen by someone who plans to use them irresponsibly. You can have guns (with proper licenses and safety precautions). Sure. Fine by me. But you CANNOT leave them unprotected where anyone can get to them and cause a lot of intentional or unintentional damage. This is how so many mass shootings happen. People don't properly lock up their guns and someone irresponsible gets to them. We can't let this continue to go unchecked.
