

Public Recreational Waterways should remain open for public recreation, not favor exclusive recreation types. It should be open to all recreationalists or none at all. As a native Oregon Family we live in Oregon and pay an incredible sum of money in property taxes to live and recreate on the Willamette River. If this restriction is executed, we will be taking our tax money elsewhere....

Using the Towed Watersports Motorboat program provides the education component needed to allow educated use for all users. Restricting use only hurts local families, local businesses that are supported by the boating community, and further distances what we all love about Oregon...it's recreation. We are local residents of the Willamette river and live here for this reason.
