Subject: Voting

Hello.

I support enfranchisement for prisoners. There's always seemed a lack of logic in the facts. We are counted by the census takers and are subject to taxation if we earn enough money, and some of us indeed do, yet we are still denied our voting rights. I would be excited to see voting used as a tool to encourage civil engagement....perhaps we would even become a block local and state governments would court and listen to.

Good luck, Stan Britain
