

RE: House bill 2970 and 2971

Dear House Committee Members,

At dulcederm we employ three licensed estheticians. We are striving to pay living wages to five employees. Small businesses have been hit hard over the past few years.

HB2970: Please restore the ability for estheticians in Oregon to return to using devices commonly used in the esthetics industry.

HB2971: We strongly support abolishing the Certified Advanced Esthetics Board. Return the regulation back to the Cosmetology Board for a balanced approach to issues that affect our license holders, facilities, and our industry.

Our team is continually seeking ways to improve their skills and provide the best service possible. Education is important to us. Earning a living is also very important to us.

Sincerely,

Tk Sullivan
