

Boating should be for all citizens. This is a family activity. The research on wakes is not thoroughly done, The videos are not accurate they were set ups by one class of boats to ather. We want to SHARE the river. This will cause congestion in other parts of the river. Safety should be used and education for all. The 4000 limit is not right since if the boat has not water in the ballest they are lighter. It takes the rights of the owners of the boats that were designed for light cruising and the option hold water in the tanks.
