

Oppose. I have zero confidence in Secretary of State Shemia Fagan's integrity in managing this office. The office is required to be non-partisan.

When I was out canvassing in my District in the 2020 election I ran across her BIG door hanger. It was TOTALLY partisan and asking for people to vote for her if they hated Donald Trump. BIG, colorful and glossy.

Fagan was running for Secretary of State which was to represent all citizens and Fagan made her door hanger like she was running against Trump.

We need election integrity and we will not get it with Fagan. To get integrity no more computer software, no computers that can be fiddled with, we have to go back to the old fashioned way. I was a poll watcher. The current process was not poll watching. Big issues with our elections here in Oregon. Any law passed I would not trust Fagan to do the right thing.

What we had in 2020 whether intentional or just opportunistic was messing with elections to the many levels of government. There was no campaign season, opportunity to meet/greet/campaign.

Oppose.
