

Thank you for your work for our state! I oppose this bill though as it seems to endorse a make up of a Public board with many citizens not being represented. I have a house on the river with a dock and enjoy paddling and have a son who is a rower with a local club. I also enjoy power boating and I see the deck being seriously stacked against these users in this proposed make up. Already I feel as though the individuals on the board aren't listening to all the stakeholders. I would love to be on the board and have input but in this scenario I don't see a way my stake would be represented. Thanks for your attention to this matter.
