

Senate Committee Chair and Committee Members:

With all due respect to you all, the only possible vote for this bill is "NO". Your bill can not guarantee that my intent as a voter would be satisfied by awarding that vote based on ranking. If we are all honest I can guarantee you that all of us, reflecting on past elections, would never have voted for the highest ranked individual at times. That person may be the reason I chose to vote for the other candidate, please do not let candidates think they are special because of ranking.

Besides, being a Navy veteran and taking the oath to defend and protect my country... did not include anything to do with ranking tp chose winners whether federal, state of local elections.

Respectfully;

Alan John
