

I support HB2510 because we need adults to be responsible to keep kids and community safe. We have glamorized guns. Guns are now a fashion accent. Guns are a tool not a statement of opinion.  
We need gun owners to be our leaders in gun safety. Safe storage of guns is not a big ask when trying to prevent suicide, unintentional shootings, and break-ins where fire arms are stolen.  
Thank you for understanding gun violence prevention is a health crisis!
