

To whom it may concern.

I oppose this bill due to my rights as a citizen to choose where my children go to school. This bill would make private schools public and control by the Oregon Department of Education. How is it that this world can support gender neutral, gay and any other affiliation or person that deems their rights are being violated, but Christian, private schools have to be under the public guidelines. We don't want are kids in public school for a reason, the things that are being taught are not ok and we should have a right to choose a school that is in line with are beliefs.
