

I am greatly concerned about the impact this bill would have on private schools. I have, and have had grandchildren educated in private school. I believe this bill would make the private school basically a public school. It is an attack against school choice. As of yet, Parents that send their kids to private school, fund the education themselves. This bill requiring schools to be registered with ODE is a great threat to the future of private schools, religious freedom parental rights and school choice. The cost of private education is very high. Parents sacrifice to pay for it so that their children get the best education they can possible get.
