

I want to express my opposition to SB791. Using ranked-choice voting is a step ahead of the current voting system we have now, but is far less effective and fair than STAR voting. With STAR voting, no votes are discounted and each ballot moves onto the final round of counting. With ranked-choice voting it has a history of being passed and then repealed because it leads to disenfranchisement voters. I urge you to vote NO on this bill. Thank you.
